RELEVANT SKILLS

- Front End Expertise
- Back End Expertise
- Full Stack Abilities
- API Integrations and Data Handling
- Teamwork
- Good Communication
- Creativeness
- Improving Efficiency

PROGRAMMING PROFICIENCY & TECH STACK

Full Stack Development

Angular/ Typescript as front end:

- Proficient in Angular for building interactive and dynamic user interfaces.Skilled in utilizing styling frameworks like Tailwind CSS and Bootstrap to create visually appealing and responsive designs.

- Experienced in fetching data from APIs and displaying real-time information on web applications.Proficient in handling data through CRUD (Create, Read, Update, Delete) operations, ensuring seamless interactions with databases.

- *Capable of creating captivating landing pages and complete websites, showcasing a strong grasp of frontend and backend development.Knowledgeable in hosting websites, deploying projects, and managing web applications for a polished and accessible online presence.*

Back-end Development

C#, ASP.NET, and SQL Server

- *With a fluent command over C# and a solid grasp of Object-Oriented Programming (OOP),*
- *I possess the skills to create robust applications. Proficient in ASP.NET framework, I confidently connect applications to SQL databases, ensuring seamless data management.*
- *Additionally, I excel in building powerful ASP.NET Core Web APIs, delivering cutting-edge solutions. My passion for coding and problem-solving drives me to continually innovate and create software solutions that stand the test of time*

Front End

- HTML 5
- CSS 3
- Tailwinds CSS
- Bootstrap

- Angular
- Angular Material
- Font Awesome Icons
- Typescript

Back End

- Typescript
- C#
- ASP .NET
- SQL Server
- JSON Storage
- Firebase
- Entity Framework Core
- RESTful API Development
- Git - Source Control

PORTFOLIO PROJECT

My portfolio website is a showcase of my skills and projects, developed using Angular, TypeScript, and Tailwind CSS. It's hosted on Firebase for seamless accessibility. I take pride in the real-time contact section that allows users to reach out to me directly. I'm excited to collaborate on exciting opportunities and make meaningful contributions in the world of web development.

TECH NEWS PROJECT

In my news application, built with Angular and TypeScript, I integrated real-time news data fetched from a third-party API and presented them in an intuitive and user-friendly interface. Leveraging the power of interfaces, services, pipes, and component communication allowed me to create a seamless experience for users. The app facilitates both parent-to-child and child-to-parent communication, enabling efficient data exchange and a smooth navigation flow. I take pride in this project as it showcases my technical expertise in developing dynamic and interactive web applications that cater to the ever-changing world of news and information.

CAR VEIWER CRUD APP

In my car uploader Angular application, I used Angular, TypeScript, pure CSS, and ASP .Net WEB API. With these technologies, I created a CRUD (Create, Read, Update, Delete) application that allows users to upload car details. I also made use of Microsoft NuGet packages to connect with the database and

ABOUT ME:

Hello there! I am a passionate and driven 19-year-old self-taught Full Stack Developer with expertise in C# and Angular. With a strong command of TypeScript, I can confidently create various functionalities, including powerful services and effective state management. My dedication to continuous learning enables me to explore multiple programming languages like C++, Python, and Java, while excelling in the principles of Object-Oriented Programming.
I thrive on tackling challenges and constantly seek opportunities to apply my skills to the fullest. As an adaptable developer, I am open to any position, whether it's Front End, Back End, or Full Stack Development.

My portfolio, which you can explore at https://mbuelo-maranda.web.app, showcases my diverse projects, including **APIs** developed using C#, illustrating my comprehensive understanding of this language.
I am eager to contribute to innovative projects. With a keen eye for detail and a passion for elegant coding, I bring a fresh perspective to every task. I am confident that my enthusiasm and proficiency in C# and TypeScript, coupled with my diverse programming knowledge, make me a valuable asset to any team.
Thank you for considering my profile, and I look forward to the exciting opportunities that lie ahead!
